

Karl Thompson

Superintendent

Karl Thompson is a Superintendent with AccuTech Construction, and brings more than 35 years of field construction expertise. He is responsible for site security, mediation between owners and subcontractors, project safety, and project quality. He thoroughly enjoys a job well done and has the hand-on discipline for getting the details correct so that the owner's goals are realized. His regular project duties include scheduling tasks and materials, field coordination, and project communication, and these are accomplished by seeing a variety of paths to the goal and choosing the best one, and tenaciously executing it.

A very unassuming man of few words, Karl just gets things done. When not building things, Karl is involved with coaching youth baseball, and is a consummate family man.
